

ALL GIRLS ALLOWED
In Jesus' Name, Simply Love Her

ABOUT US

MISSION

"In Jesus' Name, Simply Love Her."

All Girls Allowed seeks to restore the God-given life, value and dignity to women by seeking transformation both of hearts and of societies. We seek to emulate God's command in Micah 6:8 (act justly, love mercy, walk humbly with God) by:

- Exposing the injustice of China's One-Child Policy;
- Rescuing girls and mothers from gendercide in society; and
- Celebrating women by embracing them as equal image-bearers of God through our pledge: "In Jesus' Name, Simply Love Her."

In so doing, we pray that God would end the One-Child Policy, uproot gendercide in hearts and in societies, and bring complete restoration to his people.

EXPOSE: CHINA AND THE ONE-CHILD POLICY

All Girls Allowed is committed to exposing the injustice of the One-Child Policy, from its role in gendercide to its part in individual cases of abuse inflicted by policy enforcers. In China, the three words "It's a girl!" are often received with sadness and disappointment because parents have a strong cultural preference for boys. Joined with the strict One-Child Policy, this preference has **fatal implications** for China's girls. Currently, **one** out of every **six** girls is eliminated through sex-selective abortion, abandonment, or infanticide. That means **1.1 million** girls are lost **every year**. There are now **37 million** more men than women in China. All Girls Allowed seeks to expose the horror of gendercide and highlight the implications of this growing gender gap.

RESCUE: SAVING GIRLS FROM GENDERCIDE

The [Baby Shower Gift Program](#) was born out of a desire to empower mothers who keep their daughters despite heavy cultural pressure to have a son. We provide monthly financial assistance to help a mother provide well for her baby girl, which strengthens the dignity of both mother and daughter in the eyes of their community. Parents may only use the stipend to buy food, medication, and clothing. While \$20 per month may not seem like much for us, it goes a long way to help poor families in China, where many live on less than \$2 per day. This model, which is called a "conditional cash transfer," has been successful in promoting healthy behavior in other countries. We have seen the fruits of this program multiply as new workers line up to enroll pregnant mothers.

HEAL: RESTORING HOPE TO MOTHERS

The women and girls we serve in China have urgent needs. A baby girl needs to be seen as valuable in order to be welcomed into the world. A pregnant woman needs quick intervention if family planning officials are threatening her with a forced abortion. We realize, though, that deeper problems ultimately lead to these scenarios. Women in China are frequently seen as lacking in value—unworthy of dignity and even sometimes life itself. Because of this, the solutions must run deeper than just giving immediate aid. Women who suffer traumatic events like forced abortion or domestic violence (which affects 1/3 of households in China) need healing that can be found only in the love of Jesus. To God, each of these women is a beloved daughter, no matter how wounded she may be. We are training our workers to help counsel women and bring the love of Jesus to women so they can overcome past trauma and find hope.
